DETAILED ACTION

1. This communication is responsive to the applicant's amendment dated 06/22/2006.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Vilmur et al, Chan, Chandran et al, and Furuta are made of record here as pertinent art to the claimed invention.

Each of the cited reference above discloses noise suppression system or device having different technique and method for noise signal processing.

Allowable Subject Matter

3. Claims 1-17 are allowed.

4. The following is an Examiner's Statement of Reasons for Allowance:

Applicant's argument filed 06/22/2006 is considered and deemed sufficient to overcome the outstanding non-final rejection dated 03/22/2006. Updated search was conducted, however, the newly found prior art listed above also fails to disclose or suggest the instant claimed invention as a whole and as argued.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
